---

1   Loading screen

2   Home dashboard page

Buddies are animal based helpers using static cartoon images.
There are 6 buddies to choose from.
There will be a default Buddy if none are chosen.

3   Location

The choice of location will determine which items of rubbish are presented. This page will feature a return / back button to the home dashboard.

4   Litter type selection

The user will scroll through a series of images of materials based on the location. Clicking on the image will take the user to the next screen.

5   Question page

This page displays a different, random question relating to the item found.

5.1   Action confirmation

A modal pop-over will appear to confirm the user's actions. Clicking YES will forward them to the next screen. Clicking on close will close the modal and return them to the selection screen.

6 A   Incorrect Answer page

The user is given the correct answer and the opportunity to try another question, or change the type of litter they have found.

6 B   Correct Answer page

When the answer is correct, the user is awared points, which goes towards their overall total. They are also given three choices of what to do next.

Are you sure you want to unlock Crocodile?

YES

select

---

7   Change Buddy main page

Each buddy will have a value. The buddy can be 'purchased' or 'unlocked' using points gained.

7 A   Change Buddy Locked

When a buddy is locked the image will be grayed out and will display the value of the buddy in points.
If the user dos not have enough points to unlock the buddy, the unlock button will be unavailable..

7 B   Change Buddy unlocked

If the user has previously unlocked a buddy it will appear in full colour with a check mark to indicate it has been unlocked. A button will appear saying 'choose buddy' enablign them to select that as their new buddy.

If the buddy has already been chosen, the Choose Buddy button will appear but be grayed out.

On selection, the user is takne page to page 3

7 C   Unlock buddy

If the user has enough points to unlock a locked buddy, the 'Unlock Buddy' button will appear enabling them to unlock.

7.1   Confirmation

After clicking on Unlock Buddy, a pop-up modal appears asking for confirmation. Clicking on YES unlocks the buddy and returns the user to page 7B to enable them to choose which of their unlocked buddies they want to use.

Closing the modal from the X retruns the user to the previous page 7C.
